

The Dangers of Wrong Support

Location #1: Support Behind You

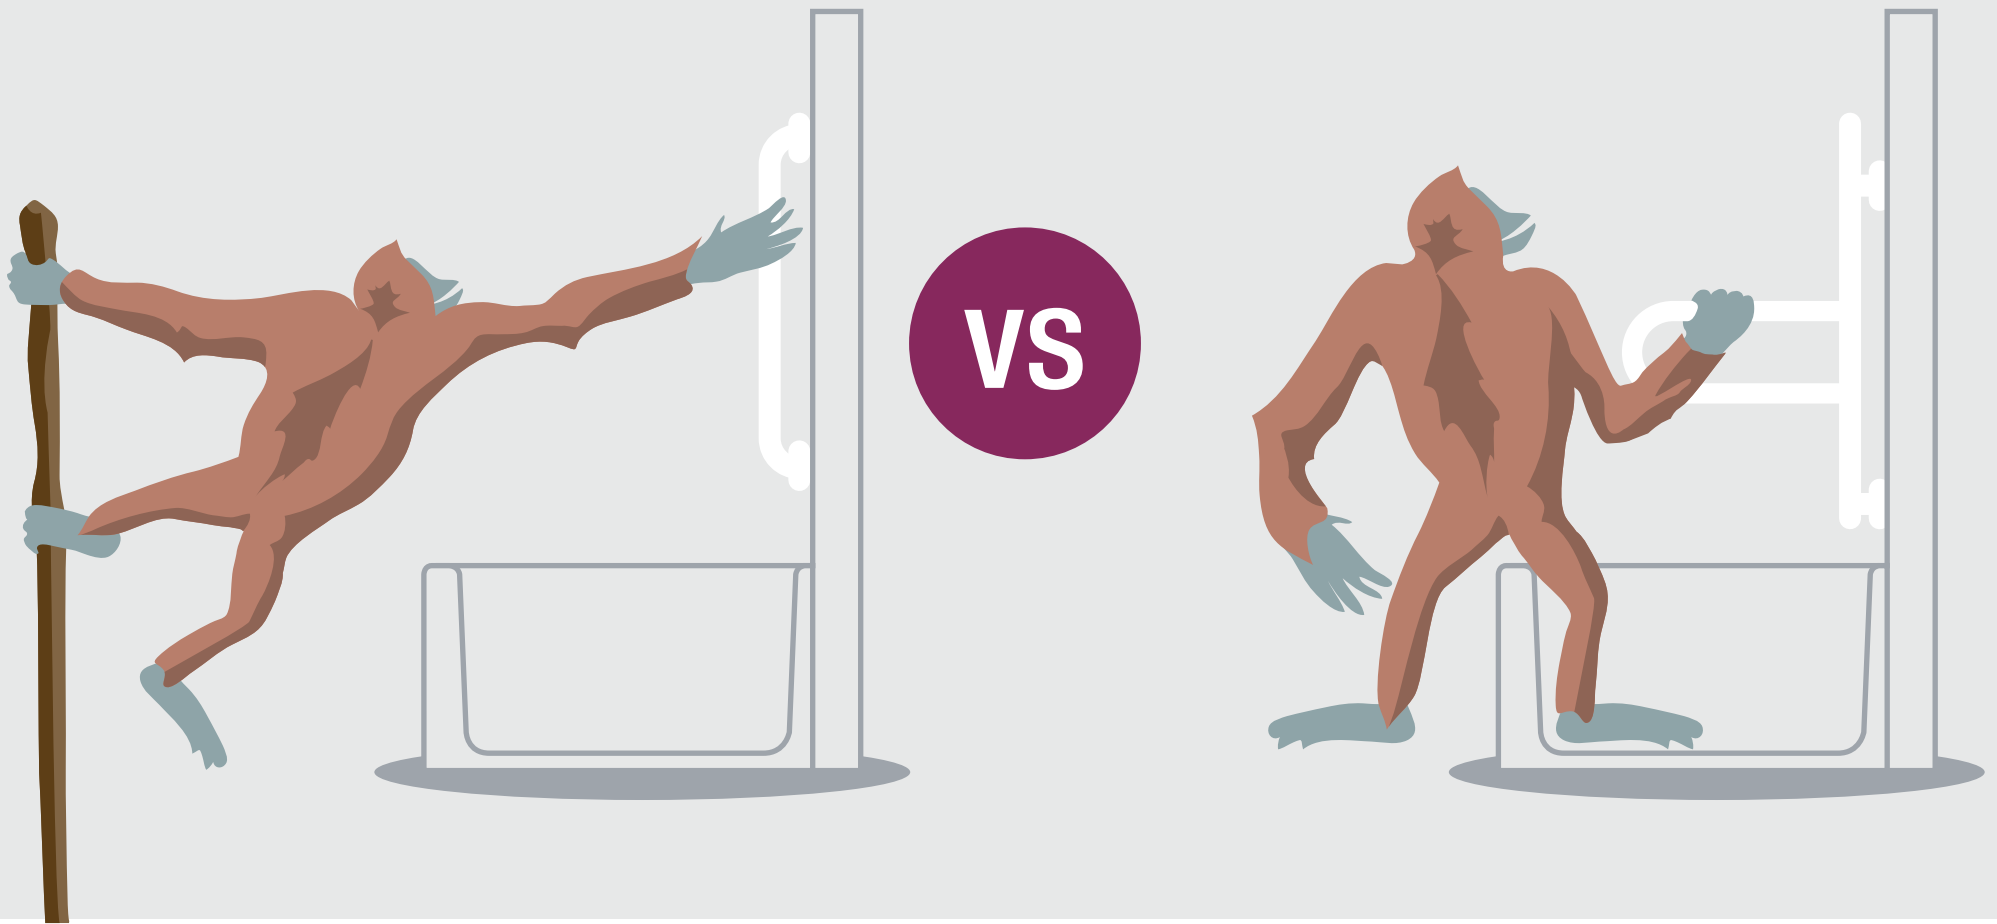

THE SKYDIVER

A safe transfer should not require a leap of faith.

Location #2: Support Out Of Reach

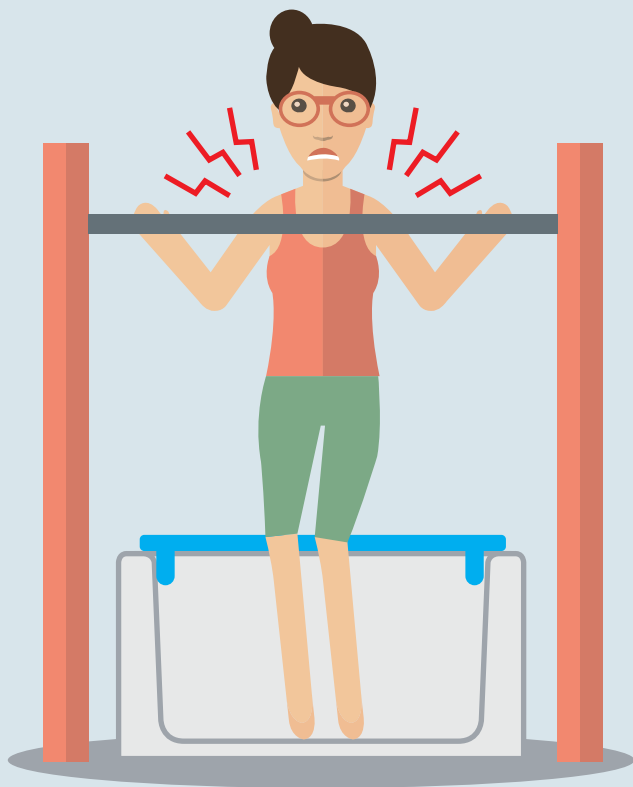

THE ORANGUTAN

Reaching for support is risky, especially as we age.

Location #3: Support Above You

THE GYMNAST

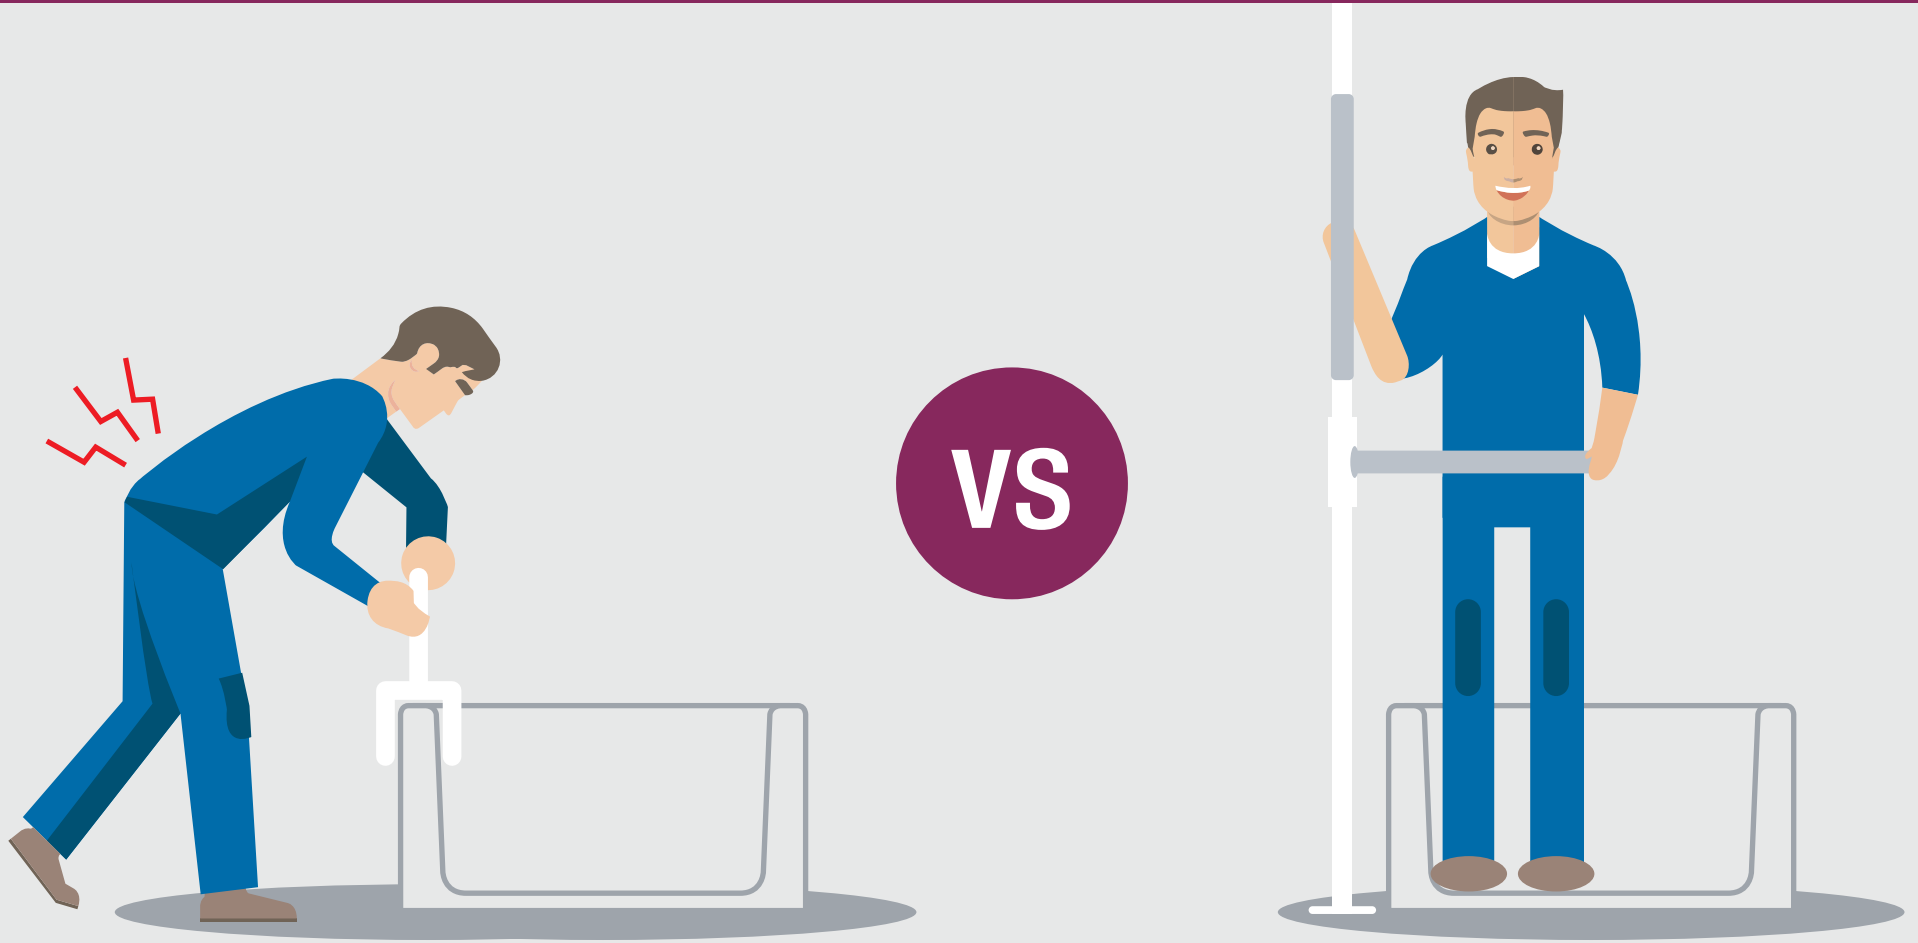

VS

Safe transfers should not require Olympic level strength.

Location #4: Support Too Low

THE MECHANIC

Excessive bending isn't necessary to get the job done.

*"The products are well made - everything just works,
everything goes together and feels solid."*

- Stuart Ed, Conval-Aid in Ottawa, Canada

Incentive programs designed with your success in mind

Free freight, performance level discounts, and improved customer service and engagement. We are your partners in success.

Support for your Sales Team

We offer live, concise online training modules for you to interact directly with our sales team. We sell solutions, not just products.

The EUREKA moment happens when a customers can actually touch and feel the products

We have several different methods of displaying products to sell, from eye-catching retail packaging to displays that show the product in context.
